RE: Gustin Solar Energy Center – Application Update

Planning Commissioners:

Following the July 29 2026, public hearing on Consumers Energy Company's application for special land use and site plan approval for the Gustin Solar Energy Center, Consumers Energy reviewed its application materials in light of the comments received, including those submitted by Grobbel Environmental & Planning Associates ("Grobbel Report") and professional engineer Sam Megli ("Megli Report").

Consumers Energy submitted a direct response to the Grobbel report on September 28, 2026. Consumers Energy's responses to the Megli report are reflected in updates to the following materials submitted in support of its application:

- Application Narrative (clarifications and revisions reflecting current study results)
- Ex. B - Site Plan (proposed screening, additional technical information and graphical revisions)
- Ex. D - Glare Analysis (re-modeling based on 2026B ForgeSolar software update, additional explanatory information, and additional receptor variables)
- Ex. E - Operations & Maintenance Plan (project-specific information in addition to uniform company standard procedures and protocols)
- Ex. F - Emergency Response Plan (project-specific information in addition to uniform company standard procedures and protocols)
- Ex. H - Decommissioning Plan & Estimate (clarifications)
- Ex. I - Permit Matrix (new)
- Ex. J – Vegetation Management Plan (new)

To facilitate the Planning Commission's review of the updated application, Consumers Energy hereby submits 8 copies of its complete application materials for the Planning Commission's consideration as it continues its review of the application on October 7, 2026.

Sincerely,

Peter Wyckoff
Project Development Manager
